MEWS SUMMARY.

City Affairs.

-A meeting of Republicans was held at Diligent Hall, on Saturday night, for the purpose of inaugurating a reform in the mode of electing candidates for office. Mr. Isaac Atkinson presided, and H. C. Hawkins acted as Secretary. After an address by Major A. R. Calhoun, a series of resolutions were reported, among them the following:-

Resolved, That as an earnest of our desire to form an organization free from the influence of rings and cliques, we declare one of our cardinal rules to be embodied in our rule, that no person who shall be an applicant or contestant for or an incumbent of any political office, either elective or by appointment under general, State, county, or city government, except division election offi-cers, shall be competent to be an officer of this organization, or a chairman of any of the standing committees thereof,

After the appointment of a committee of ten on the rules, the meeting adjourned. —Detective Heilman and Officer Hause visited the old Richmond district on Saturday. and found a still in operation back of No. 1040 William street, which was torn out. Evidence of a still having been recently torn out was

found back of No. 1622 Richmond street. At both places a large quantity of mash was found. The revenue officers were surrounded by a crowd of men, women, and children, who amused themselves by throwing stones at the -The annual field practice of the Philadel-

On Wednesday the company will be enlivened by the presence of the families of the members, and the rifle practice will be confined to the ladies. Prizes and premiums will be fired for on all the days, amounting in the aggregate to near \$800. These will be distributed to the successful shots on Wednesday afternoon. Music and dancing will follow during the remainder of the day. His Honor the Mayor has accepted the invitation to visit the festival on Wednesday.

Foreign Affairs.

LONDON, June 6 .- A meeting of conservative peers was held yesterday to determine what course should be pursued in regard to the bill for the disestablishment of the Irish Church, Lord Cairns urged that opposition be made to the bill on its second reading, and that it be finally rejected. He said the leaders of the party did not wish to dictate, and were anxious that the judgment of each peer should remain unfettered. He felt that, as the country had

never pronounced on the present bill, and as the feeling of the House of Lords was so opposed to it, the most politic, consistent, and best course to pursue, under the circumstances, would be to repudiate the measure.

Lord Salisbury deprecated the course recommended by Lord Cairns. The agitation which would follow the rejection of the bill would be most disastrous to the country, and would do nothing to save the Irish Church.

modify it in committee than to allow ill-feel-

ing and excitement.

Lord Caernaryon supported the recommendation of Lord Salisbury, and urged the Cham-ber of Peers, now that it was able, to make terms for the Irish Church; they might not have an opportunity hereafter.

Lord Derby was in favor of rejecting the bill, contending that personal fears should

deter no one from doing right.

A majority of the lords present approved the views of Derby, and it was agreed that the second reading of the bill should be opposed. It is estimated that there will be a majority of eighty against the Irish bill.

LONDON, June 5.—The London journals

continue their editorials on Lord Clarendon's review of the Alabama correspondence. The Standard, after abusing America for arro-gance and greed, says that no English Minister ever had to make an explanation so humiliating as Lord Clarendon uttered in the House of Lords. However conscious of the perfect sincerity of his motives, and the rectitude of his conduct, it was no less a humiliation to be obliged to treat in the conventional phrases of diplomacy with a country that has acted as the United States did in the Alabama

The Telegraph, ministerial organ, says:—
"From what transpired in the House of Lords last night, Mr. Motley can ascertain what hopes there are to reopen negotiations, and he will see that, in the opinion of Englishmen, the country has gone far enough. What he may solicit with success he can find in the articles of the rejected convention, and what it is hopeless even to suggest he can find in Senator Sumner's speech.

The Star says: "We can now advance steadily into the future. Americans cannot now doubt the willingness of the British government to do them right, or its determination to protect its own character and credit.

The Times, referring to Lord Clarendon's statement, says, with curious criticism on its own work, that it made no great expression of satisfaction when the negotiations fell through, and for its own part, considering how much America wanted and how much the British secretaries were ready to give, it was a wonder that England got off so well.

London, June 5.—The result of the Royal Times Yacht Club race was as follows:—The Eugenia won the first prize in six hours, twenty minutes and forty seconds, beating the Cambria. The course was from Gravesend to the Mouse Light and back. The Prince of Wales accompanied the yachts in the steam yacht

London, June 6.—Some arrests have been made in Paris within the last two days, in consequence of a reported discovery by the police of a new conspiracy. The details of the affair are as yet unknown.

DUBLIN, June 6 .- An immense public meeting against the Irish Church bill was held yesterday in Londonderry. A protest against the bill was adopted, and will be sent to the House of Lords.

Paris, June 5.-Mr. Washburne, the American Minister, is ill, and will go to Homburg. He leaves Mr. Hoffman, first secretary, in charge of the legation. Prelates from abroad are beginning to ar-

rive in Rome to take part in the Ecumenical VIENNA, June 5.- The military budget is published. The estimates are \$5,000,000 in excess of last year, calculated on the basis of an army of 800,000 men.

Beelin, June 5.—The Parliament of the Zollverein has elected Simson President, and Prince Hohenlohe, the Duke of Ujest, Vice-President. Prince Hohenlohe thanked the Chamber for his re-election, and said this vote, in his eyes, had great political importance. -Mary Ann Selton committed suicide in The confidence shown in him would encourage him to proceed and persevere in the course he considered right, and bring about good understanding, reconciliation and union among the German people.

BERLIN, June 6,-The North German Parliament has adopted the Federal budget. The annual revenue and expenditure of the Confederation are about equal, being estimated at 76,000,000 thalers each.

Madrid, June 6 .- The direct taxes in the Spanish colonies have been reduced one-half. and a small export duty on sugar, rum and

tobacco imposed.

Brussers, June 5.—The Upper Chamber has confirmed the bill recently passed by the Lower House to abolish imprisonment for debt.

ALEXANDRIA, June 6,-A report has reached here that an Englishman and his family have been massacred by the natives in Abyssinia. HAVANA, June 5. - General Dulce sailed to day for Spain. He was accompanied to the steamer by all the military officers of high rank now in Havana, and by the colonels of

the volunteer regiments. The journals of this city publish reports representing that thousands of the insurgents are surrendering, and asserting that among those who have given up their swords are Generals Pedro Cespedes and Francisco For-

HAVANA, June 5 .- Mr. Nelson, Minister to Mexico, sailed to-day for Vera Cruz. The Peruvian monitors have arrived at Barbadoes in four and a half days from St. Thomas. News from St. Domingo to May 22 says the Dominican Government had just concluded a loan of £400,000 with Hartmon, of London. Bills to the amount of £40,000 have been drawn, but there are doubts of their acceptance and the conclusion of the loan. The republic is completely tranquil. The custom ionse at Puerto Plata has been burned.

Notwithstanding the official reports to the contrary, there were evidences that ex-President Cabral was meeting with success in the

South. Advices from Hayti to May 25 state that General Saget, the revolutionary leader, was looking for the arrival of the steamers Florida, Quaker City, and America, which he expected to add to his navy, and, with their assistance, overthow Salnave. General Luperon remained at St. Marc with the steamer Tele-

HAVANA, June 4, via Key West, June 5 .-(Special to the New York Herald.)-The programme of the volunteers is to remain quiet until the arrival of General de Roda, and to allow him to assume command and then wait

events. The Spanish Admiral strongly objected to the action of the volunteers in deposing Dulce, but as he finally acquiesced, it is believed he will remain a passive spectator of whatever they may do before the arrival of

De Roda The volunteers have removed the Governors of Cardenas and Colon, and propose to establish a triumvirate, consisting of prominent Spaniards, to govern the island until the home government is settled. They will probably give Count Valmaseda command of the forces in the field.

The Governor of Havana and the Chief Justice have resigned. Forty officials and the Bishop accompany

General Espana is expected to resign soon. A serious affray between the volunteers It would be better to accept the bill and and regulars had taken place at Cardenas.

Destructive Fire in Camden. Between six and seven o'clock last night an incendiary fired the extensive three-story frame grist mill of McKeon & Bingham, in close proximity to the Delaware, at the foot of Penn street, Camden, New Jersey, and

although every effort was made to stay the flames, the building was quickly consumed. The saw mill adjoining, a one-story frame, next ignited, and was also destroyed. Then the flames made their way among the piles of lumber in the yard immediately adjoining, and before they were checked a large quantity of flooring and other sawed woods was burned

The grist mill was an old structure, and was formerly used as a hat factory. It contained about \$1000 worth of grain, which was con-sumed. The machinery in both mills was rendered worthless by the heat. The firm estimate their entire loss on the mills and lumber between \$50,000 and \$60,000, and their insurance at \$25,000, divided among the Girard and Home of this city and the Royal of Liverpool,

The fire was first discovered in the southern end of the first floor of the grist mill, near the engine-room, and it is said that but a few minutes before this a couple of men were noticed leaving the building, and it is supposed that one of them kindled the fire. The fire made a great light, and continued to burn vigorously until long after dack, Several Philadelphia fire companies crossed
